

Sean Monahan, Au.D.

Ear Medical Group, San Antonio, Texas

Phone: +1 210-614-6070 Email: seanm@earmedgroup.com

Education

Nova Southeastern University, Fort Lauderdale, Florida

August 2015- August 2019

- Doctor of Audiology

The Ohio State University, Columbus, Ohio

August 2011-May 2015

- Bachelors of Art in Speech and Hearing Science

Clinical Experience

Ear Medical Group, San Antonio, Texas

January 2019-present

Population: newborn-geriatrics; position: student extern carrying independent patient load.

40 hours/week

Position: Student extern carrying independent patient load.

- Performs, analyzes, and interprets the following contemporary audiometric tests, including medically complex cases:
 - Visual reinforcement, conditioned play, and standard audiometry. Aided cochlear implant and bone-anchored hearing aid testing.
 - Tympanometry, and acoustic reflex threshold and decay.
 - Auditory brainstem response, electrocochleography, cervical vestibular evoked myogenic potential, and electroneuronography
 - Distortion product otoacoustic emissions
 - Video head impulse test, posturography, and rotary chair.

Island Audiology, Kahului, Hawaii

August 2018-November 2018

Population: 5+ years; position: student extern carrying independent patient load

40 hours/week

- Performs, analyzes, and interprets the following contemporary audiometric tests:
 - Standard audiometry
 - Tympanometry and acoustic reflex threshold.
- Performed cerumen management when necessary.
- Plan and conduct a program of therapy for hearing loss and communication disorders:
 - Counseled patients on test results and amplification options (ReSound, Oticon, Starkey)
 - Obtained appropriate measurements for amplification devices
 - Obtained sufficient ear mold impressions, independently
 - Ordered, checked in, and fit amplification using real-ear verification.
 - Counseled patients on the care and use of devices
 - Worked with manufacturers to troubleshoot problems and repair devices.
 - Programmed accessories for amplification (TV streamers, remote microphones, etc.)
- Provided hearing care to local veteran population through the Veteran Choice Program.
- Participated in marketing of the practice and monthly physician outreach.
- Facilitated sending visit reports to referring providers.
- Observed VA compensation and pension evaluations.

West Palm Beach Veterans Administration, West Palm Beach, Florida.

January-April 2018

Population: Adults; position: Student intern

16 hours/week

- Performs, analyzes, and interprets the following contemporary audiometric tests, including medically complex cases:
 - Audiometrics
 - Tympanometry, and acoustic reflex threshold
 - Videonystagmography, video head impulse test, vestibular myogenic evoked potential.
- Performed cerumen management when necessary
- Plan and conduct a program of therapy for hearing loss and communication disorders:

- o Counseled patients on test results and amplification options (ReSound, Starkey, Oticon)
- o Obtained appropriate measurements for amplification devices
- o Obtained sufficient ear mold impressions
- o Fit amplification using real-ear verification
- o Counseled patients on the care and use of devices.
- Referred patients to appropriate professionals as necessary.

Joe DiMaggio Children's Hospital, Hollywood, Florida

August-November 2017

Population: Pediatrics; position: student intern

16 hours/week

- Participated in the hospital's Interdisciplinary Craniofacial Clinic in addition to everyday ENT clinic.
- Performs, analyzes, and interprets the following contemporary audiometric tests, including medically complex cases:
 - o Visual reinforcement, conditioned play, and standard audiometrics.
 - o Tympanometry
 - o Distortion product otoacoustic emissions
 - o Auditory brainstem response

Cleveland Clinic Florida, Weston, Florida

May-July 2017

Population: Adults; position: student intern

16 hours/week

- Performs, analyzes, and interprets the following contemporary audiometric tests, including medically complex cases:
 - o Standard audiometrics
 - o Tympanometry
 - o Videonystagmography and video head impulse test
 - o Auditory brainstem response, electrocochleography, cervical and ocular vestibular evoked myogenic potential.
- Plan and conduct a program of therapy for hearing loss and communication disorders:
 - o Counseled patients on test results and amplification options (ReSound, Starkey, Oticon)
 - o Obtained appropriate measurements for amplification devices
 - o Obtained sufficient ear mold impressions
 - o Counseled patients on the care and use of devices.

South Florida Pediatric Otolaryngology, Fort Lauderdale, Florida

January-April 2017

Population: Pediatrics; position: Student intern

4 hours/week

- Performs, analyzes, and interprets the following contemporary audiometric tests:
 - o Visual reinforcement, conditioned play, and standard audiometrics
 - o Tympanometry
 - o Distortion product otoacoustic emissions

Special Olympics Winter Games-Healthy Athletes, Orlando, Florida

November 2016

Student Volunteer

- Screened athletes using tympanometry and distortion product otoacoustic emissions
- Performed cerumen management when necessary.

Nova Southeastern University Audiology Clinic, Fort Lauderdale, Florida

May 2016-April 2017

Population: Newborn-geriatric; position: Student

8 hours/week

- Performs, analyzes, and interprets the following contemporary audiometric tests:
 - o Visual reinforcement, conditioned play, and standard audiometrics
 - o Tympanometry, wideband immittance, and acoustic reflex threshold
 - o Distortion product otoacoustic emissions
 - o Auditory brainstem response and auditory steady state response
 - o Videonystagmography, cervical vestibular evoked myogenic potential, video head impulse test, and sensory organization testing.
- Performed cerumen management when necessary
- Plan and conduct a program of therapy for hearing loss and communication disorders:
 - o Counseled patients on test results and amplification options (Phonak, Oticon, Starkey)

- o Obtained appropriate measurements for amplification devices
- o Obtained sufficient ear mold impressions, independently
- o Ordered and fit amplification using real-ear verification.
- o Counseled patients on the care and use of devices
- o Worked with manufacturers to troubleshoot problems and repair devices.

Research

Leadership and Service

United States Masters Swimming

January 2016- Present

- 3 All American honors
- 15 individual national championship titles
- 9 relay national championship titles
 - o United States Masters Swimming National Record

Nova Southeastern University Audiology Clinic Graduate Assistant

January 2016-September 2017

- Supported clinicians and staff with:
 - o Hearing aid ordering and repairs
 - o Supply ordering and inventory
 - o Re-organized and updated the clinic's safety data sheet binder
- Assisted walk-in patients with hearing instrument troubleshooting and repairs.
 - o Provided in-house repairs for devices
 - o Sent devices directly to manufacturer or all-make repairs
 - o Facilitated communicating with patients about the status of repairs.
- Checked-in and verified all hearing aid and accessory components were in house before patient appointment
- Facilitated sending visit reports to referring providers.

American Academy of Audiology: Student Member

August 2015-December 2018

- 2016-2017 NSU chapter treasurer
 - o Managed a budget of \$7,500

The Ohio State University Department of Recreation-Aquatics

June 2012-July 2015

- Aquatic Facility Coordinator
 - o Supervised a staff of 20 on-duty student employees
- Crew Chief
 - o Supervised a staff of 10 on-duty student employees
- Pool Technician
- Lifeguard

The Ohio State University Men's Swimming Varsity Athlete

August 2011-March 2015

- 4 time varsity letter winner
- Scholar Athlete, Academic All Big Ten, Manager of the Year

Skills

- Electronic Medical Records: NextGen, EPIC, Sycle, Greenway, ROES.
- NOAH
- Microsoft Office
- American Red Cross CPR Professional Rescuer
